

# lw-http-status

A response parameter returned when the request includes the [lw-suppress-status](#) parameter set to true.

## Example

```
POST /lightwave/api/v1/transaction/2c00031c9b890000c40ff4182950cac4
lw-suppress-status: 1

HTTP/1.1 200 OK
lw-http-status: 404
lw-http-reason: Not Found
```
